

Alessi, London

With a city old as you
We just can't mistake your grace
It's a pity that's old is new
As they slowly change your face

Chorus:

Ooh London, don't give it away
Cause we can't replace the charm
That you've given the world

Ooh London

Such tradition from your left hand cars
To the changing of the fuard wishpering words
So much beaty, castles stand so proud
And remind us of your past

Chorus:

Ooh London, don't give it away
Cause we can't replace the charm
That you've given the world

Ooh London

Older an older your pride to ignores the pain
Of change, ooh London you're the city

Chorus:

Ooh London, don't give it away
Cause we can't replace the charm
That you've given the world

Ooh London
