

Alessi, What A Way To Go

Lookin my best, checkin the time
Everything I tried to say
I could see was taken wrong
Shes lookin away, fightin the tears
With haste in our decision
We swept away the years
Love with no end
Neither one of us would give in

Chorus:

What a way to go
What am I gonna find
When I turn the corner and admit that I was blind
Too late to change
Too much has been said
But if I could start again
I would do anything
We could have been there
We could have had everything
Were never gonna know
What we pushed aside
Im takin my last look into those lonely eyes
Nothin else left to say
We slowly turn away
Love with no end
The two of us too stubborn to bend

(Chorus)

As the final moment enters
Theres a stillness in the air
As I slowly let go of your hand

(Chorus)
