

# Alesso, Sweet Escape (ft. Sirena)

We drive so far to get away  
Never look back  
We don't care about nothing else  
A sweet escape  
Gotta break free, like a shooting star  
Let the skyline guide us  
We don't care about nothing else  
A sweet escape  
Feels like heaven, nothing can stop us now  
We run away  
A sweet escape  
Nothing can hold us down  
Just like a wave that never breaks  
Nothing can stop us now  
And if you fall, I'll pick you up  
I'll follow you till the end of time  
We run away, a sweet escape  
Nothing can stop us now  
Nothing can stop us now  
Nothing can stop us now  
All lights go out and fade away  
Never lose faith, leave all of your fears behind  
A sweet escape  
Gotta break free, with an opened heart  
Let the sunshine find us  
We don't care about nothing else  
A sweet escape  
Feels like Heaven  
Nothing can stop us now  
We run away a sweet escape  
Nothing can hold us down  
Just like a wave that never breaks  
Nothing can stop us now  
And if you fall, I'll pick you up  
I'll follow you till the end of time  
We run away a sweet escape  
Nothing can stop us now  
Nothing can stop us now  
Nothing can stop us now
