

Alex Aiono, Work The Middle

Come and meet me with the lights low
Where it's just me and you
Girl take me to the nightshow
Give me a front row with you
Baby don't say no, no, no, no
You know what I wanna do
I could be your maestro
And never play for you a fool

I'm three seconds from way too gone I know
And I'm two seconds from blowing up your phone
You're the one I wanna see when I get home
Don't leave me alone

Come and meet me at the afterparty
Bring your body, mama work the middle
Just a little don't tell nobody
Bring your body, mama work the middle
Come and meet me at the afterparty
Bring your body, mama work the middle
Just a little don't tell nobody

I didn't leave a photo
I keep my eyes close to you
Don't keep me waiting solo
I already ditched the crew
Baby don't say no, no, no, no
You know what I wanna do
You know what I wanna do
You know what I wanna do
