

Alex Band, Euphoria

When you take a breath
But you can't you hold it in
When you try to live
But don't know where to begin
When there's no hope left
No place you can go
Look inside your heart
Close your eyes and you'll know...

CHORUS

It's euphoria
Out of the blue
Into the light
Let it shine down all over you
You gotta give love to get love
In Euphoria
Under the moon
Take in the night
Let each day
Start yourself anew
You gotta give love to get love
Like a piece of glass
That's washed in from the sea
You can't taste the good
Unless you're willing to bleed
So just take a chance
You're ready to fly
Feel what it is
To be alive...

CHORUS

Repeat CHORUS

In Euphoria
You gotta give love to get love
In Euphoria
You gotta give love to get love
In Euphoria
You gotta give love to get love
