

Alex Harvey, Faith Healer

If your body's feelin' bad
And it's the only one you have
You want to take away the pain
Go out walkin' in the rain
You watch the flowers go to bed
Ask the man inside yah head
Your spirit never has to grieve
All yah got to do's believe

The faith healer
The faith healer

All yah got to do is feel
Your body's going to start to heal
Fingertips and holy fire
Everlasting sweet desire
It don't matter what the doctor said
The healer man will sail away
Immortality for two
The miracles, can come to you

The faith healer

The faith healer

Can I put my hands on you?
Can I put my hands on you?

The faith healer
The faith healer

Faith, and hope and charity
It's simple relativity
He can make you understand
All make up to take his hand
Remember when somebody said
Ask the man inside yah head
The fingertips of holy fire
Everlasting sweet desire

The faith healer

Can I put my hands on you? Ahhh...(6 times)
