

Alex Saidac, Stay In This Moment

I'm riding in my car and I'm going out, out, out
Feels like I'm 16 again nothing can stop me now, stop me now
Yeah tonight I don't care, cause I be working on ...
Yeah tonight I'm just gonna, have fun, have fun, have fun

I'll bet you never seen me wanna groove like this
Wanna move like this, dance till the sun comes up
Nothing in this world can stop me now
I'ma stay in this moment
I'll bet you never seen me wanna groove like this
Wanna move like this, dance till the sun comes up
Nothing in this world can stop me now
I'ma stay in this moment now
Stay in this moment
I'ma stay in this moment now

I don't give a fuck what the people say
I'm gonna do me tonight
I'm good anyway
You can stay if you like, I am buying ... on my check
Because I'm just living my life, my life, my life

I'll bet you never seen me wanna groove like this
Wanna move like this, dance till the sun comes up
Nothing in this world can stop me now
I'ma stay in this moment
I'll bet you never seen me wanna groove like this
Wanna move like this, dance till the sun comes up
Nothing in this world can stop me now
I'ma stay in this moment now
Stay in this moment
I'ma stay in this moment now
I don't care what time it is
Just wanna stay like this, hope that this night never ends no
I'm so unstoppable, cause this night is magical
Yeah I'm on my natural high, on natural high, high, high

I'll bet you never seen me wanna groove like this
Wanna move like this, dance till the sun comes up
Nothing in this world can stop me now
I'ma stay in this moment
I'll bet you never seen me wanna groove like this
Wanna move like this, dance till the sun comes up
Nothing in this world can stop me now
I'ma stay in this moment now
Stay in this moment
I'ma stay in this moment now.
