

Alexander O'Neal, Sunshine

Cloudy was the day when Sunshine came into my life
And made it brighter
She touched me with her warmness as the light shines from her smile
She makes me happy
I could never keep myself away ~cause when I'm next to her
I feel the warm rays reaching out from her love
She touch me with a smile that glows
I can't go a day without my Sunshine
She warms me with her heart of gold
I can't go a day without my Sunshine
When life's troubles come around and they start to get me down
I call my Sunshine
Because there's no other remedy strong enough for me
Just her
I can never keep myself away ~cause when I'm next to her
I feel those warm rays reaching out from her love
She touch me with a smile that glows
I can't go a day without my Sunshine
She warms me with her heart of gold
I can't go a day without my Sunshine
Touch me with a smile that glows
I can't go a day without my Sunshine
My Sunshine, my Sunshine, my Sunshine
She warms me with her heart of gold
I can't go a day without my Sunshine
My Sunshine, my Sunshine
I can never keep myself away ~cause when I'm next to her
I feel those warm rays reaching out from her love
Sunshine, Sunshine, Sunshine, Sunshine
She touch me with a smile that glows
She warms me with her heart of gold
Sunshine, Sunshine, Sunshine, Sunshine
All I wanna say, girl
You know, sometimes sunshine turns to rain
