## Alexander O'Neal, Sunshine

Cloudy was the day when Sunshine came into my life And made it brighter She touched me with her warmness as the light shines from her smile She makes me happy I could never keep myself away ~cause when I'm next to her I feel the warm rays reaching out from her love She touch me with a smile that glows I can't go a day without my Sunshine She warms me with her heart of gold I can't go a day without my Sunshine When life's troubles come around and they start to get me down I call my Sunshine Because there's no other remedy strong enough for me Just her I can never keep myself away ~cause when I'm next to her I feel those warm rays reaching out from her love She touch me with a smile that glows I can't go a day without my Sunshine She warms me with her heart of gold I can't go a day without my Sunshine Touch me with a smile that glows I can't go a day without my Sunshine My Sunshine, my Sunshine, my Sunshine She warms me with her heart of gold I can't go a day without my Sunshine My Sunshine, my Sunshine I can never keep myself away ~cause when I'm next to her I feel those warm rays reaching out from her love Sunshine, Sunshine, Sunshine, Sunshine She touch me with a smile that glows She warms me with her heart of gold Sunshine, Sunshine, Sunshine, Sunshine All I wanna say, girl You know, sometimes sunshine turns to rain
