

Alexandra Burke, Gotta Go

You said you'd never break my heart

And we'll never be apart

So seeing you after so long

Got me spinning round, round, round

You said we'd always be together

And to me you were so precious

So after you what happens now?

You got me feeling down, down, down, down

So I think I gotta go 'cause seeing you is so confusing

And I might end up losing again, so I'm thinking, thinking

I think I gotta go before I start to catch a feeling

And you might end up leaving like you left me once before

My heart can't take no more so I think I gotta go

Seeing you after so long

Feels so strange 'cause the feelings ain't gone

Like a roller coaster ride

Got me spinning round, round, round

So I think I gotta go 'cause seeing you is so confusing

And I might end up losing again, so I'm thinking, thinking

I think I gotta go before I start to catch a feeling

And you might end up leaving like you left me once before

My heart can't take no more, so I think I gotta go

You see the damage has been done

And now I know you're not the one

Because my heart just wants to run and run and run and run

So I think I gotta go before I start to catch a feeling

You might end up leaving again, so I'm thinking, thinking

So I think I gotta go 'cause seeing you is so confusing

And I might end up losing again, so I'm thinking, thinking

I think I gotta go before I start to catch a feeling

And you might end up leaving like you left me once before

My heart can't take no more

So I think I gotta go 'cause seeing you is so confusing

And I might end up losing again, so I'm thinking, thinking

I think I gotta go before I start to catch a feeling
