

Alexandra Burke, Light of a dreamer

They were coming
Right at us
I was running
You were scared
I was happy
I was smiling
Cause I knew
That between me and you
We had the upper hand
They were aiming
We were too
When you're running
Like we were, it's hard to shoot
I ran out and so did you
So I pulled something new
Out of my jacket
They said back hand
Gal on the ground, laid down
They started covering my eyes
'cause it was too bright
Told 'em
Gal on the ground, they laughed
Through the light in the crowd
CHORUS:
They've never seen the light of the dreamer
It turns the cold into a believer
The light of the dreamer
Pain comes out just so like a sin hurts
Now I'm a scream
Ain't there no way in the world
You can find her up
The sun only coming down when you need it
They've never seen the light of the dreamer
No, don't run, no, don't run
From the light of the dreamer
Catch your light on
No, don't run, no, don't run
From the light of the dreamer
Now they're with us
There are differences
Let the light out
Light is bright and I can feel it
They see dreams I've never seen
Cause they rise and I can see
Raisin' up their hands oh
We're the army
Lovin' fighters
Livin' bright we got the light
Don't need the lighter
I'm ready and so are you
Know it all is something new
Yeah we packing
No turning back now
Gal on the ground, laid down
They started covering my eyes
'cause it was too bright
Told 'em
Gal on the ground, they laughed
Through the light in the crowd
CHORUS:
They've never seen the light of the dreamer
It turns the cold into a believer
The light of the dreamer
Pain comes out just so like a sin hurts

Now I'ma scream
Ain't there no way in the world
You can find her up
The sun only coming down when you need it
They've never seen the light of the dreamer
Know you need it
No, don't run, no, don't run
From the light of the dreamer
Catch your light on
Don't run, no, don't run
From the light of the dreamer
Lovin' fighters
We livin' bright we got the light
Don't need the lighter
We don't need a lighter
Got the fire
We survive don't need the light
We livin' brighter
Don't need a lighter
CHORUS:
They've never seen the light of the dreamer
It turns the cold into a believer
The light of the dreamer
Pain comes out just so like a sin hurts
Now I'ma scream
Ain't there no way in the world
You can find her up
The sun only coming down when you need it
They've never seen the light of the dreamer
Know you need it
No, don't run, no, don't run
From the light of the dreamer
Catch your light on
Don't run, no, don't run
From the light of the dreamer
