

Alexandra Burke, Perfect Mistake

Oh oh

He says this love is more than it could take
He left my life with only but things to say
A times I felt that my world was over
I've never thought I would find a friend
To build it back again and soft the things
I see it because it's over
I see it because I'm stronger
And I'm in control

CHORUS:

All I can see is better this way
Cause he'd already took your place
I set down and realize this be an over
Was a perfect mistake
He's nothing like you
And took your games
To find my destiny
I saw his escape was so off the way cause
You were my perfect mistake
He built his a love on nothing but happiness
He says whatever's broken
There's nothing that he can't fix
You're only here cause you're all alone
You wanna come back in my mix
You need a find your homing'
Let it go and pretend we don't exist
We say if it the cause is over
I'm sayin it because I know you
I'm stronger now

CHORUS:

All I can see is better this way
Cause he'd already took your place
I set down and realize this be an over
Was a perfect mistake
He's nothing like you
And took your games
To find my destiny
I saw his escape was so off the way cause
You were my perfect mistake
What you need to do this
And find your own escape
Stop needing me cause
I don't want you this way
And I have to do was pass for me

CHORUS:

All I can see is better this way
Cause he'd already took your place
I set down and realize this be an over
Was a perfect mistake
He's nothing like you
And took your games
To find my destiny
I saw his escape was so off the way cause
You were my perfect mistake
