Alexandra Stan, Cherry Pop

There was this guy and me I never thought that we could have that chemistry But he became the one to show me stars in the sky

That light up the night

My fantasy fell into something true

He put a spell on me under the moonlight

And I knew,

Now, I can stop thinking about that taste like cherry pop

Pop pop, cherry cherry, pop pop

Pop pop, cherry cherry, pop pop

Cherry pop

Last night we made out

Then we saw the blackout

But it tasted like a cherry pop pop

Now I'm looking in his eyes

All I see is paradise

You're tasty like a cherry pop pop pop

Never felt like this before,

I just want more

Pop pop, cherry cherry, pop pop

Pop pop pop pop!

And now they're asking me

Are you and him together?

How is it gonna be

Or is it just playing tricks on your mind

I bet that he's not your kind

My fantasy fell into something true

He put a spell on me under the moonlight

And I knew,

Now I can stop thinking about that taste like cherry pop

Pop pop, cherry cherry, pop pop

Pop pop, cherry cherry, pop pop

Cherry pop

Last night we made out

Then we saw the blackout

But it tasted like a cherry pop pop

Now I'm looking in his eyes

All I see is paradise

You're tasty like a cherry pop pop pop

Never felt like this before,

I just want more

Pop pop, cherry cherry, pop pop

Pop pop pop pop!

Pop pop pop pop!

Cherry cherry pop

Cherry cherry pop

Cherry cherry pop

Cherry cherry pop

Pop pop, cherry cherry, pop pop

Pop pop, cherry cherry, pop pop

Last night we made out

Then we saw the blackout

But it tasted like a cherry pop pop

Now I'm looking in his eyes

All I see is paradise

You're tasty like a cherry pop pop

Never felt like this before,

I just want more

Pop pop, cherry cherry, pop pop

Pop pop pop pop!
