

# Alexis Strum, Strike A Light

I'm in a wilderness- don't know which way is up or down  
Don't know how you'll talk me round,  
Going kinda crazed since you left  
Dancing on a jagged edge  
All that I can do is wait,  
'Till then, I'll  
Strike a light  
Keep all the wheels turning  
Strike a light  
Keep all the fires burning  
Everytime you need someone  
I'll be there to guide you home  
Just call on me,  
Strike a light  
Oh the days and nights are so long  
Time's ever growing short,  
If I was an astronaut  
I could see the world so small  
(And) know that you were out there safe  
Maybe find some comfort in space,  
'Till then, I'll  
Strike a light  
Keep all the wheels turning  
Strike a light  
Keep all the fires burning  
Everytime you need someone  
I'll be there to guide you home  
Just call on me,  
Strike a light
