## Alexis Strum, World Without Your Love

I'm in over my head and I think I like it Never felt so never felt so complete I'm right over the edge and I'm so excited I can see the ground beneath my feet So don't save me now How did I get this far in a world without your heart? How did I live so long in a world without your love? I was on a losing streak till the day I met you Now I'm winning every hand I'm placing all my bets on love Its peculiar- it don't work out the way I planned So don't bring me down How did I get this far in a world without your heart? How did I live so long in a world without your love? Lord I wanna stay with you but it's not easy Love is something that you do- I'll try my best
