

# Alexisonfire, Drunks, Lovers, Sinners And Saints

ALRIGHT!

This is from our hearts  
Sincerity over simple chords  
We made some mistakes  
We made some mistakes  
But it's a long time coming when your giving it everything

ALRIGHT!

This is from our hearts  
Sincerity over simple chords  
We made some mistakes  
We made some mistakes  
But it's a long time coming when your giving it everything

ALRIGHT!

This is from our hearts  
And it's been right from the start  
There's fire in my guts you just can't put out

ALRIGHT!

This is from our hearts (From our hearts)  
And there's always gonna be a part of this crowd  
Who don't understand

OH!

And I feel the same  
I won't ever change  
Not a jaded hair upon my head

Are you pretending?  
(That you care!)  
Are you even listening?  
Are you pretending?  
(That you understand!)  
Are you even?

Suits to the left  
Squares to the right  
Cause my heart - my heart is full  
And we ride to fight

Suits to the left  
Squares to the right  
Cause my heart - my heart is full  
And we ride to fight

Suits to the left  
Squares to the right  
Cause my heart - my heart is full  
And we ride to fight

Suits to the left  
Squares to the right  
Cause my heart - my heart is full  
And we ride to fight

Are you pretending?  
(That you care!)  
Are you even listening?  
Are you pretending?  
(That you understand)

Are you even listening?  
Are you pretending?

ARE YOU? ARE YOU?

Are you even listening?!  
Are you pretending?!  
That your heart's in the right place!

Are you pretending?  
Are you even listening?  
Are you pretending?  
Are you even?

There's no need to waste my time  
Spending your life  
Jumping from sinking ship to sinking ship  
I think I'd rather drown  
I know I'd rather drown!

OH!

And I feel the same  
I won't ever change  
Not a jaded hair up on my head!
