

# Alexisonfire, It Was Fear Of Myself That Made Me

Spinning arms spread  
Crushing the tops of mountains  
With my hands  
Getting lost into the Pacific  
I flood the shorelines  
And my arms spread  
aligning the ocean and thy waves  
And I will crush  
The tops of mountains with my hands  
And my hands

And the, the waves  
Washing in to kill

As this rainforest  
Falls beneath my knees  
I want to breathe  
Life into the Dead Sea

(All)  
I want to break it all with my hands  
Breathe in all the air  
And end the world  
I want to break it all  
(With my hands)  
I want to break it all with my hands  
Breathe in all the air  
Breathe in all the air  
Smash it all with my hands  
And I let us ride, slow us down, slow you down  
The human race will never live through this
