

Alexkid, Fear In Flight

somewhere up there

somewhere up there

all so clear
up here
suspended in
mid god air
dependent on
metal
man
machine

obscene
device

what price i pay to face
my fear
my airs/fears

the shortest distance between two point
is years

up here
up here
up here
up here

it's not that deep
people say
it's not that deep
it's not that deep
not that deep
that
deep

then why does XXXXXXXXXXXX
lover arms escape me
only fear invades me

too swiftly
too easily
squeezing me
graft and hard
fake and identity
all

so clear up here
so clear up here
so clear up here
so clear up here

do i fear
not flighing
but the soaring

what if

i were to don waxen wings
become to god not honorable then
soon become to comfortable then
soon become to powerfull
in my personal ascension

soar
to close to the sun
soar
to close to the sun

reach my zenith
or
like egress

will i like daedalus's son
fall
planet
will i like daedalus's son
fall
planet

will my summit
be more like my hell

or will i stay

buoyant

up here
up here
up here
up here

prayerfull and feelings

knowing death is inevitable
life is more veritable

because if i am scared of dying
i cannot live
because if i am scared of dying
i cannot live

up here
