

Alexz Johnson, Wish up on a star

I had a dream that you were real. Oh yeah, baby.

When I look at the stars I see your face,

wishing you were here. And I

need all the love you can bring me, boy.

Looking at the stars above, yeah,

I'm thinking of sweet love.

And I am wishing on a star-

you are thinking of me, too.

And I am wishing on a star-

we are together forever.

Baby, when it came to you,

I knew, oh,

and I recognized

a love so beautiful and true

that I could

share with only you.

You could be my guy

with the help from the angels

in the sky.

And I am wishing on a star-

you are thinking of me, too.

And I am wishing on a star-

we are together forever.

Why did you have to go away?

I just wanted you to stay by my side

all day and all night.

I want you to hold my heart

and never let it go.

I need you here

and I want you to know.

And I am wishing on a star-

you are thinking of me, too.

And I am wishing on a star-

we are together forever.

And I am wishing on a star-

you are thinking of me, too.

And I am wishing on a star-

we are together forever
