Land Of Goshen
In Northern Indiana,
Where you feel a gentle breeze
Along the Elkhart River
In the shadows of Maple Trees

Lies the community of Goshen
That's where we work and play
You can see us working together
And you can hear the people say:

Land Of Goshen
How we love you
Our friends and our families
Help to make this Special City
The town God meant for it to be.

From the corn of gold to apples red
With wheat fields in between
We harvest all our good hard work
The best you've ever seen

We look forward to the HHHH fair
And Goshen Sidewalk Days
You can see us playing together
And you can hear the people say

Land Of Goshen
How we love you
Our friends and our families
Help to make this Special City.
The town God meant for it to be.

You can see us celebrate our diversity
In our town today
We honor our community
And you can hear the people say:

Land Of Goshen
How we love you
Our friends and our families
Help to make this Special City
The town God meant for it to be.

Land Of Goshen
How we love you
Our friends and our families
Help to make this Special City
The town God meant for it to be
