

# Alfie, Winding Roads

Step back from the world around you,  
Look on to your pastures new,  
You will grow.  
Live through all your empty moments,  
Keep hope that the ones you love, love you.

I'm going down and you follow me,  
If you want to.  
Going down for good.

If you go down winding roads,  
Only winding roads will follow you.

Hold on to the thoughts that matter,  
Think back and remember more,  
They are yours.  
Time stops when you're always moving,  
Stand still and you'll never leave that spot.

I'm going down and you follow me,  
If you want to.  
Going down for good.

If you go down winding roads,  
Only winding roads will follow you.  
Honeysuckle grows and flows,  
If you stay it will grow over you.

Scrape me from the city's pavement,  
Throw me out into the sea like a stone,  
Set sail on the windy ocean,  
Swim free it's your only chance to be alone,  
It must have been something,  
Every time you're on the floor.
