&lt;/lyrics&gt;  
To the attic in the ceiling  
There are tiny holes.  
Footstep that grates every night  
When the eyes peep

My room is a display counter.  
Parts of the body  
It disjointedly takes a nap.

It touches so.  
Only in the glance  
From whose love  
Febrile disease that sweetly scorches skin

The hair of dust  
I want to pat it.  
It erases and you : here.  
It is not possible to come when doing.

To the back where a red skink slipped  
A dark throbbing is put.  
It rises on the wall.

Now, it gets off.  
Only the soul  
To a dream interior  
It is deeper.  
I am gotten to know.

The one wanting it  
It is in the eyes.  
It is ..Midori.. far.  
Sorrow like bottom of water

Now, it gets off.  
Only the soul  
To dream outskirts  
...combining..  
Let's live.
