&lt;/lyrics&gt;

The heavens are now far away  
Like a lake  
But without filth, your heart is  
Reflected on the earth

Wake up, angel  
Come, open your eyes  
Will your wet wings  
Open in  
The moonlight?

Life and death are things we arrange  
The praying voice is the wind  
The trees and shrubs of life sway  
When I shook the sky

Wake up, angel  
Come, extend your arms  
The palms of your little hands  
Can't hug me  
But it has love

Sing, angel  
Sing the eternal melody

One day, your wings  
Will hug  
Someone's dreams

Wake up, angel  
With the dimple of your rose  
Flow without stopping  
For your tears to stop
