&lt;lyrics&gt;  
I come out of the roadside trees  
the constellation of a ship is moving  
o summer sky, like a law,  
I am alone for this year

I remember the summer house  
where i waited with your arms  
oh master moon, where am i falling to  
as this only goodbye has left

surely, I'll come  
if you scream  
the stars are a small bird

just for this night, I am refreshed  
let's meet in the month where we were together  
in the one memory  
let's count our spreading space

the heavens are a celebration wine  
singing in the festival of the stars  
the moonlight had a drink with the glass  
just in my direction, let it coldly freeze

in the distant country  
you are the same  
as you shake in the light

just for this light, in the crowd  
let's meet in the month where we were together  
the skies aim for my heart  
before I fall and break through

just for this night, in the abyss of love,  
let's meet in the month where we together  
tomorrow is just going to disappear  
like how the dream of a midsummer night will
