</lyrics>

The sky chasing the parasol which it flies
That daughter went
Fin of goldfish of tank
Like calm murderous intent
Stealing my important aphrodisiac
The crime which made that person drink is heavy

The portrait whose whereabouts obscurity is sad
As for detective of astringent mustache
From midst of many girls
My arm is caught
Yesterday the [wa] which slept at the room
As for such a daughter besides the fact that you do not know, hitting

The [ma] [tsu] kana parasol floats
The dog the [ho] obtains in the lake
As for the detective the neck being able to tilt
Complete crime formation
As for me the game of the aphrodisiac which is found
Detective you of the mustache are good
