

Alice Cooper, Caffeine

I gotta stay awake
I just can't sleep
Because I know inside
If I close my eyes
It'll be the death of me
Because I fear the night
When the darkness creeps
That's when the shadows thrive
That's when I must survive
'Cause every night they come for me
I'm shakin' in the ice-cold shower
I've been here for about a week
But if I leave I could doze for hours
And that would surely be the end of a coward like me
Caffeine, caffeine
Amphetamine
A little speed is all I need
Caffeine, caffeine
I won't sleep at night
I won't rest my head
Because I realize if I shut my eyes
I'm gonna wake up dead
I'm in a desperate way
I'm very near the end
And all I know's
A triple shot of joe
Is my only friend
I'm shakin' in the ice-cold shower
I've been here for about a week
But if I leave I could doze for hours
And that would surely be the end of a coward like me
Caffeine, caffeine
Amphetamine
A little speed is all I need
Caffeine, caffeine
(Gimme gimme gimme gimme - oh)
