

# Alice Cooper, Caffeine

I gotta stay awake  
I just can't sleep  
Because I know inside  
If I close my eyes  
It'll be the death of me  
Because I fear the night  
When the darkness creeps  
That's when the shadows thrive  
That's when I must survive  
'Cause every night they come for me  
I'm shakin' in the ice-cold shower  
I've been here for about a week  
But if I leave I could doze for hours  
And that would surely be the end of a coward like me  
Caffeine, caffeine  
Amphetamine  
A little speed is all I need  
Caffeine, caffeine  
I won't sleep at night  
I won't rest my head  
Because I realize if I shut my eyes  
I'm gonna wake up dead  
I'm in a desperate way  
I'm very near the end  
And all I know's  
A triple shot of joe  
Is my only friend  
I'm shakin' in the ice-cold shower  
I've been here for about a week  
But if I leave I could doze for hours  
And that would surely be the end of a coward like me  
Caffeine, caffeine  
Amphetamine  
A tittle speed is all I need  
Caffeine, caffeine  
(Gimme gimme gimme gimme - oh)
