Alice Cooper, Take It Like A Woman

I bet ya never thought That it would never turn out like this Mama's little girl Daddy's little princess

But somewhere in your fairy tale Everything went wrong Now the sun don't shine The words don't ryhme You're out of time

You've been beaten down Kicked around on the ground But you took it like a woman Victimized, terrorized, paralyzed But you took it like a woman Pushed too far pulled too hard Deeply scared I know you must have felt the pain But you took it like a woman

Ya thought you had your Mr. Right But he was really Mr. Hyde Ya gave him your most precious gift You were his bleeding bride He tied you up pulled your hair He slapped your innocent face Yeah, you were black and blue He laughed at you So what'd you do?

Aw you've been beaten down Kicked around on the ground But you took it like a woman Victimized, terrorized, paralyzed But you took it like a woman Pushed too far pulled too hard Deeply scared I know you must have felt the pain But you took it like a woman

And so its over Your fantasy life is finally at an end And the world above is still a brutal place And the story will start again

You been beaten down Kicked around on the ground But you took it like a woman Victimized, terrorized, paralyzed But you took it like a woman Pushed too far pulled too hard Deeply scared I know you must have felt the pain

Felt the pain I know you must have felt the pain But you took it like a woman You took it like a woman I know you must have felt the pain You took it like a woman I know you must have felt the pain You took it like a woman I know you must have felt the pain You took it like a woman
