Alice Cooper, Took It Like A Woman

I bet ya never thought That it would never turn out like this Mama's little girl Daddy's little princess But somewhere in your fairy tale Everything went wrong Now the sun don't shine The words don't rhyme You're out of time You've been beaten down Kicked around on the ground But you took it like a woman Victimized, terrorized, paralyzed But you took it like a woman Pushed too far pulled too hard Deeply scarred I know you must have felt the pain But you took it like a woman Ya thought you had your Mr.Right But he was really Mr.Hyde Ya gave him your most precious gift You were his bleeding bride He tied you up pulled your hair He slapped your innocent face Yeah, you were black and blue He laughed at you so what'd you do? Aw, you've been beaten down Kicked around on the ground But you took it like a woman Victimized, terrorized, paralyzed But you took it like a woman Pushed too far pulled too hard Deeply scarred I know you must have felt the pain But you took it like a woman And so its over Your fantasy life is finally at an end And the world above is still a brutal place And the story will start again You been beaten down Kicked around on the ground But you took it like a woman Victimized, terrorized, paralyzed But you took it like a woman Pushed too far pulled too hard Deeply scarred I know you must have felt the pain Felt the pain I know you must have felt the pain But you took it like a woman You took it like a woman I know you must have felt the pain You took it like a woman I know you must have felt the pain You took it like a woman I know you must have felt the pain You took it like a woman
