

Alice In Chains, Leave Me Alone

Blame me
Save a prayer for those who haunt you
There now
I don't mind if you still love me
Don't come overhear what I say
Don't come overhear what I say
Don't come overhear what I say
Just leave me alone
Leave me alone
Shame me
Hide your heart from those who hunt you
Way down (down, down)
Would you care if I still need her
Don't come overhear what I say
Don't come overhear what I say
Don't come overhear what I say
Just leave me alone
Leave me alone
Save me
Taken far from those who flaunt you
Calm down
Drag your heart and you behind her
Don't come overhear what I say
Don't come overhear what I say
Don't come overhear what I say
Just leave me alone
Leave me alone
