

# Alicia Keys, Butterflyz

Mmhmn mmhmn

Lately when I look into your eyes I realize  
You're the only one I need in my life  
Baby I just don't know how to describe  
How lovely you made me feel inside

You give me butterflyz  
Got me flying so high in the sky  
I can't control the butterflyz

You give me butterflyz  
Got me flying so high in the sky  
I can't control the butterflyz

It seems like the light you give???  
From the start you told me I would be your queen  
But never had I imagined such a feeling  
Joy is what you bring  
I want to give you everything

You give me butterflyz  
Got me flying so high in the sky  
I can't control the butterflyz

You give me butterflyz  
Got me flying so high in the sky  
I can't control these butterflyz

You and I are destiny  
I know now you were made for me

Oh oh ooh  
I can't control it  
It's driving me  
Taking me over

You give me butterflyz  
Got me flying so high in the sky  
I can't control the butterflyz

You give me butterflyz  
Got me flying so high in the sky  
I can't control the butterflyz
