

Alicia Keys, December Back 2 June

Uh
Now I think it's that time
I know it's your favorite time of year and
The laughter and cheerful spirit
Reminds you of trips around the sun, uh, yeah
(It's just Christmastime) yeah, I'll show you, 3-6-5, yeah
But today I wanna make sure it's just right
'Cause right now's a present you only get once
The world can be so cold (uh, yeah)
But I got so much love, it's lighting up (what?)
The fire inside my soul, so baby
For this Christmas (yeah), don't need wishes (yeah)
Not since I met you (yeah, a-no-no-no, it's just Christmastime, yeah)
Every season (what?), you'll give reason to love you (what?)
From December back to June, uh, uh, uh
It's just Christmastime (uh, yeah)
It's just Christmastime (c'mon)
let's make it the best time in our lives
Even when the rain is falling outside (true)
Let my fireplace keep you so safe and warm (I got you)
(It's just-) some people want diamonds (uh) and pearls (yeah)
But I don't really need the whole world (right)
Underneath the (Christmas) tree, just need to be your girl (ah)
It's just Christmastime (look)
The world can be so cold, yeah
But I got so much love it's lighting up (where?)
The fire inside my soul, so baby (let's go)
For this Christmas (yeah), don't need wishes (yeah)
Not since I met you (it's just Christmastime)
Every season (c'mon), you'll give reason to love you (when?)
From December back to June (back to June)
It's just Christmastime (hey, oh-ohh)
It's just Christmastime
It's just Christmastime (haha, yeah)
It's just Christmastime (when? From December back to June)
I mean Christmas is all the time when I'm wit' you
That's what I'm tryna say, you know? Huh, haha
It's just- (uh)
