

Alicia Keys, Wait Til You See My Smile

When the wind is blowing in your face
Sometimes in life you don't see straight
Wait for him
He will show
When your head is in a certain place
Nobody around to make you say
Stand strong and you will go
Oooooooooooooooooo
Wait till you see my smile
Oooooooooooooooooo
Wait till you see your smile
Don't they love to see you down
Kick you while you are in the ground
Don't let any emotions show
People always make you late
Don't let them get in your way
See they say things they don't know
Oooooooooooooooooo
Wait till you see my smile
Oooooooooooooooooo
Wait till you see your smile
Hey
So don't you look better now
Everybody comes around
Cause you don't really need much
Just don't go in and your better ready for whatever
Saying
Oooooooooooooooooo
Wait till you see my smile
Oooooooooooooooooo
Wait till you see your smile
Oooooooooooooooooo
Wait till you see my smile
Oooooooooooooooooo
Wait till you see your smile
