

Alien Ant Farm, Dole Roll

Cause if you would have been back by now, love this day
Don't be wrong don't take it away
If you would have been back by now
You'd muster up some sharpness, don't mind my eyes
Two angels sent from down
They bustin' heads cause we won't pray
That bitch won't save me
Why be that low
Cause if you would have been back by now, love this day
Don't stop
If you would have been back by now,
Muster up some sharpness, don't mind my eyes
These angels tore their gown
Conversion takes more than one day
That bitch won't save me
Why be that low
Cause if you would have been back by now, love this day
Don't be wrong, don't take it away
If you would have been back by now
You'd muster up some sharpness, don't mind my eyes
VeinPainTake one away, don't believe my load
Two angles sent from down
They bustin' heads cause we won't pray
That bitch won't save me
Why be that low
Cause if you would have been back by now, love this day
Don't stop, if you would have been back by now
Muster up some sharpness, don't mind my eyes
Know, all I know, all I knowand don't be afraid
Know, all I know, all I knowand don't be afraid
