

Alien Ant Farm, Fade

Waking up and feeling that I'm not here
Your greatest fear is that I'm finding my own
All this time you said that you needed a friend
You know I never listened
Shadow a path to a dark road

Every day
I see your face
Find a way
For you to fade
Take away
All of our pain
Just burn it out
Don't let it fade

Nightmare, hold tight, I'll be alright
Oh these long nights, you'll never know
I'm still wasting, nothing's changing
Where's my angel, her wings are broke

Every day
I see your face
Find a way
For you to fade
Take away
All of our pain
Just burn it out
Don't let it fade

No she thinks I'm overstepping
Never learned my lesson
I can't kill my own aggression
Why am I always stressing?
No she thinks I'm overstepping
Never learned my lesson
I can't kill my own aggression
Why am I always stressing?

Every day
I see your face
Find a way
For you to fade
Take away
All of our pain
Just burn it out
Don't let it fade

Don't let it fade
Don't let it fade
No she thinks I'm overstepping
Never learned my lesson
I can't kill my own aggression
Why am I always stressing?
