

ALIEN CUT & DINO BROWN, Party Time (feat. V

Here we sing together tu du di du di du da
All the girls acting hard, making boys go wild
Here we sing together tu du di du di du da
This is how we have fun when it's party time
Hear the people screaming tu du di du di du da
Boys are dancing real hard, making girls go wild
Here we sing together tu du di du di du da
Hurry up, fill the floor cause it's party time

Dressing up and chasing lights, we got to live tonight
All together for our destination
Boys and girls, we ride 'til light, we are adrenalized
Ready to go for our weekend vacation
Dancing together, fooling forever
We'll dance 'til morning comes
Cause we all know
That life is a feeling, we wanna live it
Feels in here paradise
So live this life

No regrets for what we left behind to live this way
Living life is living for this moment
Never listen to what people think, what people say
Be yourself is what will make you stronger
Living on feelings, strongly believing
Good things will come our way
Cause we all know
That nothing's forever, it's now or never
Find things to satisfy
So live this life

Here we sing together tu du di du di du da
All the girls acting hard, making boys go wild
Here we sing together tu du di du di du da
This is how we have fun when it's party time
Hear the people screaming tu du di du di du da
Boys are dancing real hard, making girls go wild
Here we sing together tu du di du di du da
Hurry up, fill the floor cause it's party time

It's party time

It's party time
