

Alison Goldfrapp, NeverStop

Never stop, never stop loving
How do you see yourself?
How do you imagine the world around you?
Tell me

I stop a minute, take a look around
I feel a riot and I see a smile
It's a wonder what we are
It's all a dream and we could sleep right through
Only a minute, so enjoy the view
Feel the wonder, it's all here

We all connect
We synchronise
We are connected
Deep inside

Never stop, never stop loving
Never stop, never stop loving
Never stop, never stop loving
Never stop it, never stop it

Never stop love, never stop loving
Never stop, never stop

You're feeling mono but the waves are wild
It's weird weather when you wanted mild
Is a blue sky evergreen?
It's erotic, it's a paradise
Be a stranger to a sci-fi life
You've arrived at the sublime

We all connect
We synchronise
We are connected
Deep inside

Never stop, never stop loving
Never stop, never stop loving
Never stop, never stop loving
Never stop it, never stop it
Never stop, never stop loving
Never stop, never stop loving
Never stop, never stop loving
Never stop it, never stop it

Take a minute to look around you
How do you feel?
How do you feel today?
How do you justify anything?

Never stop love, never stop loving
Never stop love, never stop loving
Never stop love, never stop loving
Never stop, never stop
