

# Alison Moyet, Footsteps

It wont be clean and easy  
There's more to carry than a case or two  
I come with a history that I wont forget in a life with you  
This man's been true to me and I didn't come by him easy  
Shame shame crying shame  
Losing more than a family name  
Don't let your footsteps falter  
You're gonna get wet if you dip in the water  
Be sure what you take me for and I wont ever want for more  
Don't let your footsteps fail me  
You're gonna get sunk if you slip on the way  
When I say the time is right  
Go walk this mother out of sight

I didn't plan to meet you now here I am on a roundabout  
See the road where I lived my life  
If I go with you there's no turning back  
I'm tired and I aint proud but I want you more than I ever have  
Tell me baby, did you think about it?

It wont be young and pretty  
Look around you, you know it  
Aint nothing new for me I don't get fooled so easy  
What's good aint gonna be fine six months on down the line  
Shame shame crying shame  
Losing more than a family name

Have you found it, did you find what you're looking for  
You know you change your mind and it's a waste of time  
And heaven only knows you'll be on your own
