

Alkaline Trio, Live Young, Die Fast

It's no big surprise we turned out this way
It's in our eyes like shallow graves
But we are one with the larvae and dirt
We don't discriminate at all for what it's worth
So live young, die fast
No one will last
So sit back and relax, enjoy the crash
You fade into black and you're gone
(It fades into black then it's gone)
Live young, die fast
The uneasy life, an untimely death
This doesn't work at all for me so save your breath
You took your time, stashed it away
Deep down inside of a cardboard box marked "rainy day";
I feel a miracle in every breath that I breathe
Won't let this miracle end in tragedy
I sense a miracle in all that I see
Won't let this miracle slip away from me
