

# Alkaline Trio, Take Lots With Alcohol

Hello what the hell am I doin' here  
That's a really nice suit  
This is a really comfortable chair  
See I don't know if you can help me or not  
Cause I don't feel sick  
But the pains in my head have almost put me  
Underground  
I don't really care if I'm healthy or not  
Just clean my head up doc  
I'll give you anything you want  
See I don't know why I don't fall in love  
Well maybe I know why and maybe you could make it stop  
Then we'll cut it up and bury it and leave it  
Underground  
And I'll take to wishing and fall under  
Sleeping safe and sound  
Just give me medicine prescribe me anything  
Just knock me out and walk me through the door  
I have no desire to see through my own eyes anymore  
Hello what the hell are you doing here  
You made a really strange face  
This is a really uncomfortable air  
I see I'm boring you, maybe I bore myself too  
That's why I need help, I'm cleaning blood off dusty shelves  
I been cut up in this room so many times it might take days  
And those stress cracks in the wood  
How nicely they soak up the stains  
Been telling myself these jokes for so long well so long  
I'm a has been who is heckled on the stage
