

# Alkaline Trio, Weak Week

eleven eleven said the clock as i pulled it around  
the foreign days and understanding  
a way out would be nice,  
i'll have your good advice  
went up the block  
making the scream 12 after  
some days the walls look greener  
(cause they can fetch a dime)  
hung, unsafe for days you can't be weaker waiting  
and even if bugs turn into people who ask  
'are you all right?'  
say yes and smile  
it's now the outcome of every day,  
weaker days await.

even if the bugs turn to people who ask  
'are you all right?'  
just say yes and smile  
you've found the outcome of every day  
weaker days await
