

All-4-One, Love Is More Than Just

i wanted to talk to you - pick up the phone
i don't want to be alone
said i need someone to hold on tight
get ready for this magical ride
helplessly i'm falling so deep
what am i supposed to do
love's too big a word, baby to hold inside
i tried and tried, but i just can't find the love

love is more than just another 4-letter word
can't fight the feeling, no matter what you do
love is more than just another 4-letter word
if you're not careful, it's gonna get you too

today were together - tomorrow we're apart
this how our daily life goes
it really doesn't matter, baby, what's going on
we're still in love - everyone knows

if i need a helping hand i can count on you
mornin' noon or evenin' time - it's always the same
you'll always be there - i can count on you

love is more than just another 4-letter word
can't fight the feeling no matter what you do
love is more than just another 4-letter word
if you're not careful, it's gonna get you too

love is more than just another 4-letter word
can't fight the feeling no matter what you do
love is more than just another 4-letter word
if you're not careful, it's gonna get you too

i wanted to talk to you - pick up the phone
