

All-4-One, Until You Go

All-4-One

On & On

Until You Go

I've been meaning to tell you

That from far away, baby you caught my eye

You must be from heaven

Cause the way you move

I can't deny that tonight i want to kiss you

Ooh i can't resist you

Everything gonna be alright-gonna be alright

Until you go, oh baby, until you go

Let me hold you... all through the night

Until you go, oh girl, i want you know

That tonight you'll be mine

Until you go, oh baby, until you go

Let me hold you... all through the night

Until you go, oh girl, i want you know

That tonight you'll be mine

Just let me hold you

Let me find away to show you what's in my heart

Now and forever, just the two of us

And we'll never be apart

'cause tonight i wanna kiss ya, ooh, i can't resist ya

Everything gonna be alright

Gonna be alright

Until you go, oh baby, until you go

Let me hold you... all through the night

Until you go, oh girl, i want you know

That tonight you'll be mine

Until you go, oh baby, until you go

Let me hold you... all through the night

Until you go, oh girl, i want you know

That tonight you'll be mine

From the moment i saw you...

I knew you were the one for me

And know that we are together...

I don't want to set you free...

Until you go, oh baby, until you go

Let me hold you... all through the night

Until you go, oh girl, i want you know

That tonight you'll be mine

Until you go, oh baby, until you go

Let me hold you... all through the night

Until you go, oh girl, i want you know

That tonight you'll be mine

Until you go, oh baby, until you go

Let me hold you... all through the night

Until you go, oh girl, i want you know
