

All-4-One, With U

All-4-One
All-4-One...Has Left The Building
With U
Verse

I realize that love is blind
Sometimes we close our eyes
And when we look we hope to find
Someone who's there to change my life
Take a wrong and make it right
So I promise you a love that's true
For all your life

Chorus

Baby I do, I will
I can love you for all time
You're in my heart, my soul
And I pray that you'll be mine
Baby I do, If you
Will take my hand and love me
I can't wait to spend my life with you

Verse

A better man I hope to be
Whenever I'm with you
I know that you will always be
The one who's there to share my life
Till the end of time
Baby I need to know
You feel it's right

Chorus

I know that I, can love you right
And through the years I'll cherish
Every moment with you
Baby I do, I will
I can love you for all time
You're in my heart, my soul
And I pray that you'll be mine
Baby I do, If you
Will take my hand and love me
I can't wait to spend my life with you
I can't wait to spend my life...
With you
