

All American Rejects, Don't Leave Me

All American Rejects

All American Rejects

Don't Leave Me

You're sweet just like the sun

But what happens when the sun doesn't stay?

The night reminds me when you went away

Now my mind was pacing, heart is racing contemplating things that I lack

Even though you left me by myself, do I want you back?

Will you stay or will you walk?

will you let go?

Leave me all alone

I'm giving you one more chance

To make things last

Ring around the roses then she'll stay

Leave me once

Leave me twice

Kiss good-bye that will suffice

When you go away

Don't look back

Leave me once and i'll be fine

Leave me twice i'll make you mine

Just one more chance to make it once again

As the days go by, I am asking why did you leave

You left me alone and then you walked out on me

Thinking of days, thinking of ways, thinking of things that I should say

I wanna be with you and that's the only way

Don't say good-bye, just dry your eyes

A tear for everything that I did wrong

Don't say goodbye, just dry your eyes

Listen now just try and see me please don't leave me now.
