

# All, Auto Wreck

Where you going?  
Do you even care?  
Driven to distraction  
Drives you to despair  
You just spin your wheels  
I recognize the panic  
That your confidence conceals  
It's your life  
You decide  
You're in control  
Enjoy the ride  
I hope when you begin to slide  
That you know how to stop in time  
Heading for a head on  
Can't you see the signs?  
You can't even see the road  
Just the little white lines  
The needle rides on empty  
You exhale the exhaust  
You smile and nod your head and tell me  
That you're sure you're not lost  
Asleep at the wheel, open your eyes  
This is for real, this is your life  
Fast as hell isn't to fast to die  
Drive on by  
Riding high  
Its an easy life  
Kiss it goodbye
