

All, Copping Z's

I get up in the morning
But mostly in the afternoon
The sun gets up too early
The moon goes down too soon
What can I expect from the day ahead?
Maybe I'll just sleep instead, no escaping it
Sunrise, who owns your time?
9-5 for life
What can I expect from the years ahead?
I get up in the morning
But mostly in the afternoon
The sun gets up too early
The moon goes down too soon
If you would go away. I could sleep all day
But up is where I have to get, no escaping it.
