Do one to others before they get a chance to do onto you
Worldwide genocide violence side with this news
Misguided muscle of the military
Chaos catastrophe keeping the peace
There's a missile out there and it's pointed at me
Everybody count down 6, 5, 4, 3
Is everybody crazy or is it just me
Is everybody crazy or is it just me
I love you that's what she said
But I need you like a hole in the head
Ride all night for a night that I'll never forget
Sexual sedative comes so cheap
Best cut it off or you'll get it too deep
From every looks of the bed please remember to sleep
The girl that you want is the girl you can't keep
Is everybody crazy or is it just me
Is everybody crazy or is it just

But you can't complain it won't go away
Everybody wants someone else to take the blame
And this relation‘s no excuse if you want to know the truth
If you want to know the truth
She said tough luck get used to it
The only time you'd like me to get
Poverty payday think that I'm deeper than that
Between predators, creditors, and the police
Marriage miscarriage its presidents priest
What's wrong with them what the matter with me
Just bedbug crazy like a dogs got fleas
Everybody's crazy or is it just me
