All Saints, On And On

On & amp; on baby I got your back

[1st verse:]
I sit here waiting
Just so I can see your face
Full of anticipation
I just wanna call your name
You got me scared to make a move
You got me nervous 'cause it's new
But I'm still waiting

[Chorus]

Even though the journey seems so far No matter where you are I wanna be close to you Time with you may seem so far away But patience has a say I wanna be close to you

[2nd verse:]
Nothing's complicated
I know just how I feel for you
And finally I found a way
To give you all I have
Our love can't be misunderstood, boy 'cause it's too good I know you read me like a book
That's why we made it

[Chorus (x2)] Even though the journey seems so far...

[Breakdown]

On & Don baby I got your back On & Don baby I got your back

[Chorus (x2)] Even though the journey seems so far...
