

# All Saints, One Me And You

Time, space all over the place  
Whenever youre near me  
Im here my feelings are clear  
Ive never felt so sure  
Youve changed the way I create  
Ill go wherever it takes me  
Pain, tears, lead us to here  
You bring me so much joy

Chorus:  
I dont know what you do  
But I stagger and fall  
Trip up in my shoes when Im walking with you  
We can fight, make up, whatever the mood  
Cause theres only one me and u

Here now is where I see how  
My feelings can taint me  
Cold, cool, sometimes misunderstood  
Thats not how I wanna be  
The cause of pain through all of my shame  
See I know youd never waste me  
Cos love my dear,  
Yes it leads us to here

I dont know what you do  
But I stagger and fall  
Trip up in my shoes when Im walking with you  
We can fight, make up, whatever the mood  
Cause theres only one me and u

I dont know what to do  
But I stagger and fall  
Trip up in my shoes when Im walking with you  
We can fight, make up, whatever the mood  
Cause theres only one me and you.
